

Integrated Management System Policy

- 1. HawkSight SRM's Mission is to help clients achieve their security objectives by providing outstanding Security Risk Management solutions including, where applicable, the use of the specialised 'HawkSight SRM Software', to ensure that client needs and expectations are fully satisfied, demonstrating continuity across all security risk reporting as well as complying with international standards, relevant laws and regulations, and any applicable codes of practice, as they affect our products.*
- 2. To help us achieve these aims, we have implemented an Integrated Management System (IMS) complying with the international standard ISO 9001:2015, as well as being in line with ISO 31000:2018 'Risk management – guidelines'.*
- 3. In addition, to protect the information required to achieve these aims and ensure that sensitive information is clearly identified, the IMS also complies with the international standard ISO 27001:2022.*
- 4. We are committed to continually improving the effectiveness of the IMS and have set, and will monitor performance against, relevant objectives and targets.*
- 5. This policy is periodically reviewed to ensure its continuing suitability and is communicated to all associates and is displayed in the registered office and on the company website to make it available to all interested parties.*
